What is this product?

Type

Financial Contract

Term

The maturity of the product is 12 August 2030 unless it automatically cancels under the conditions detailed in the section on “**How performance is determined**”.

Objectives

The objective of the product is to make an investment in a financial instrument linked to the behavior of (an) underlying asset(s) in order to obtain a return while assuming a risk of loss of capital. The amounts listed below refer to each Nominal Amount you invest. The Calculation Agent will determine the corresponding amounts.

Underlying(s)

The return on this product is determined by reference to Banco Santander SA (Bloomberg-SAN SM Equity) and Airbus Group NV (Bloomberg-AIR FP Equity).

How the performance is determined

- On each observation date, if the closing price of the Worst Performing Underlying is greater than or equal to 65% of its initial level, you will receive on the corresponding settlement date a coupon of 7% of the Nominal Amount invested. If no coupons were earned on the prior observation periods, then you will receive a coupon of 7% for each prior period in which no coupon was earned. Otherwise, you will not receive any coupons.
- Additionally, on each Observation Date, if the price of the Worst Performing Underlying is greater than or equal to 85% of the initial level, you will recover the Nominal Amount invested and the product will be terminated. Otherwise, the product will continue to the next observation period.
- At maturity, if the product has not been terminated early: if the final level of the Worst Performing Underlying is strictly less than 60% of its Initial Level, then you will receive the Nominal Amount invested minus the difference between 60% of its Initial Level and the Final Level, divided by 60% of its Initial Level. Otherwise, you will receive the full Nominal Amount, without any loss of capital.

Higher Risk

The risk indicator assumes you keep the product until 12 August 2030. You may not terminate the contract early, unless an agreement is reached with the institution to that effect under the terms of the contract.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 5 out of 7, which is a <<medium-high risk class>>. This classification takes into consideration two elements: 1) the market risk (the volatility risk of the underlying asset and the interest rate risk) - that rates the potential losses from future performance at a medium-high risk level; and 2) the credit risk which estimates that poor market conditions are unlikely to impact the capacity of Banco de Sabadell, S.A. to pay you. In the application of the European directive 2014/59/EU, for the recovery and resolution of credit institutions and investment firms, the risk that the resolution authorities decide to redeem or convert the financial instruments subject to recapitalisation into other values, or transfer assets and/or business units of the issuer.

This product does not include any protection from future market performance, so you could lose some or all your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:

Until the product is called or matures

This may be different in each scenario and is indicated in the table

Example Investment:

EUR 10,000

If you exit after 1 year

If you exit at call or maturity

Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress (product ends after 5 years)	What you might get back after costs	EUR 1,863	EUR 1,061
	Average return each year	-81.37%	-36.13%
Unfavourable (product ends after 1 year)	What you might get back after costs		EUR 10,700 (Ω)
	Average return each year		7.00% (Ω)
Moderate (product ends after 1 year)	What you might get back after costs		EUR 10,700 (Ω)
	Average return each year		7.00% (Ω)
Favourable (product ends after 2 years)	What you might get back after costs	EUR 10,182	EUR 11,400 (Ω)
	Average return each year	1.82%	6.77% (Ω)

(Ω) In this scenario the product was called early, at the time specified in the scenario. The results shown in the right most column represent the value and return at the early call, without reinvesting the payments.

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the reference asset/s past performance over up to 5 past years. The figures shown include all the costs of the product itself, and include the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances.

What happens if Banco de Sabadell, S.A. is unable to pay out?

This Financial Contract is not a bank deposit and therefore it is not covered by a compensation or guarantee scheme. Therefore, in the event that, upon maturity, the Bank is unable to pay due to insolvency, the customer would compete with the Bank's other ordinary creditors, being subordinated to the creditors holding a privilege or guarantee, and having priority only over subordinate creditors and shareholders.

What are the costs?

The cost indicated in the following tables may change due to market fluctuations. During the contracting period, please consult the up-to-date Key Information Document on Banco Sabadell's website or via the customer's account on BS Online.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here.

We have assumed:

- EUR 10,000 is invested.
- A performance of the product that is consistent with each holding period shown.

	If the product is called at first possible date 11 August 2026	If the product reaches maturity
Total costs	EUR 353	EUR 353
Annual cost impact (*)	3.9%	0.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be 2.09% before costs and 1.36% after costs.

Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this product.	EUR 0

How long should I hold it, and can I take my money out early?

Recommended holding period: 5 years

The recommended holding period is selected to correspond with the maturity date of the product. Please note that except in automatic early repayment cases, the product is not expected to be called prior to maturity, as it lacks liquidity. In any event, should the institution consent to the early call under the terms set forth in the contract, this would be done at market value and additionally with a cancellation cost that would never exceed 1% of the contracted nominal value.

How can I complain?

In the event you should wish to complain at any time about this product, or the service you have received, you may do so by contacting our Customer Care Service through the contact form available at <https://www.bancsabadell.com> and/or by posting your complaint to the following address: Servicio de Atención al cliente – Centro Banco Sabadell, Polígono Can Sant Joan. Calle Sena, 12, 08174 Sant Cugat del Vallès and/or by emailing SAC@bancsabadell.com, provided that the use of this means of communication is in line with the provisions set forth in Law 59/2003, of 19 December, on digital signatures. Once a complaint or claim has been sent to the Customer Care Service (SAC), it can also be filed with the National Securities Market Commission (CNMV).
